

## PRODUCT BULLETIN

Date: April 18, 2023

Products Affected: SlowStop FlexRail End Caps

Change: New Universal End Caps

We are pleased to announce the introduction of a new end cap for our FlexRail line of composite guardrail. The new end cap is universal, meaning one end cap fits either end of our guardrail system. In addition, the new end cap is lower profile, allowing for reduced shipping, as well as less intrusive into the pedestrian aisle on the back side of the railing system.

The new end cap has a reduced overhang of 3" (75mm) versus the old end cap's 10" (250mm) overhang. This necessarily changes guardrail lengths for custom length guardrail assemblies. In some cases, additional bollards may be needed to cover a desired length.

Part number designation for this product is SSEY-U. Pricing is unaffected. This change is effective immediately.
