

CERTIFICATE OF COMPLIANCE  
MASH 2016 CRASHWORTHINESS

This letter, known as CoC-OP2, serves as a self-certifying certificate of crashworthiness for the OmegaPost High Speed Delineator product by Impact Recovery systems. OmegaPost is a 2.375" diameter soft plastic delineator made in heights up to 42" tall and used in channelizing traffic safety applications. It is affixed to the roadway with a 8" x 8" HDPE base that is approximately 1" tall. The entire system weighs less than 3 pounds.

OmegaPost is a "Category 1" small and light weight device with no attachments. Products such as these have been in common use for many years and are known to be crash worthy by testing of similar devices and years of demonstrable safe performance. Further, OmegaPost was AASHTO NTPEP tested with four devices impacted 200 times at 70mph without safety incident. This testing is documented in report 613301-01-2 by TTI and posted to the AASHTO NTPEP datamine.

This document should not be reproduced except in full.

A handwritten signature in black ink that reads "Kenneth A. Parrott".
